Professional Summary

Detail-oriented and proactive **Quality Assurance Engineer** with **3.5 years of experience** in manual and automated testing for healthcare and Cloud applications. Skilled in **Playwright, Cypress, and API testing**, with strong proficiency in **SQL/MySQL**, test planning, and data validation. Certified in **ISTQB and SAFe 6**, thriving in Agile, remote-first environments to ensure defect-free, on-time releases. Known for taking ownership, identifying edge cases early, and delivering **data-driven insights** that continuously improve release quality and testing efficiency.

Professional Experience

Akamai Technologies

Nov 2023 – Present

Software Development Engineer in Test (SDET)

- Designed and automated **70+ Playwright and Python test scripts** for network features, achieving a **92% pass rate** across CI pipelines and improving release reliability.
- Expanded regression coverage by **45%**, reducing manual validation effort and enabling **2x faster sprint sign-offs**.
- Built a **Flask-based monitoring dashboard** that cut defect detection time by **30%**, supporting faster RCA and deployment confidence.
- Partnered closely with developers and product managers to define **acceptance criteria**, document **edge cases**, and ensure production-readiness before release.
- Led QA for **5+ release cycles per quarter**, conducting bug triage and publishing **data-driven test summary reports** aligned with release metrics.

Zoedoc

Aug 2022 – Nov 2023

Quality Assurance Engineer 2

- Authored and executed **250+ manual and automated test cases** across **web, API, and mobile** platforms, achieving a **40% reduction in post-release defects**.
- Automated key revenue workflows using **Cypress**, reducing regression execution time by **35%** and ensuring reliable MVP rollouts.
- Drove collaboration across distributed Agile teams, conducting test case reviews, defect triage, and knowledge-sharing sessions to maintain quality across sprints.
- Enhanced QA visibility by integrating **automated test results with Confluence dashboards**, improving traceability and audit readiness.
- Recognized with **Rookie of the Quarter** for improving testing strategy and reducing customer-facing issues during MVP validation.

Translab Technologies

May 2021 – Jun 2022

Technical Intern

- Supported Azure migration validation for Verisk Analytics, achieving **99% uptime compliance** during production transitions.
- Integrated Prometheus and Grafana monitoring with Apache Airflow, improving system reliability and reducing downtime alerts by **25%**.
- Collaborated with DevOps to verify deployment integrity and data consistency across environments.

Technical Skills

Languages: Python, JavaScript, SQL, MySQL

Automation Tools: Playwright, Cypress, Pytest, JMeter, Postman

Testing Types: Functional, Regression, API, Exploratory, Performance, Cross-browser, SaaS QA

Databases: MySQL, PostgreSQL (queries, joins, data validation)

DevOps & CI/CD: Jenkins, Docker, Azure, Git

Test Management: Jira, Confluence, Bug Tracking, Test Documentation

QA Practices: Test Planning, Risk-Based Testing, Release Readiness, Bug Triage, SDLC/STLC

Certifications

ISTQB Certified Tester – Foundation Level

SAFe 6 Certified Agilist

Microsoft Azure Fundamentals (AZ-900)
Affiliate & Partnerships Industry Fundamentals

Education

Bachelor of Science in Computer Science
Chitkara University, Rajpura, Patiala

Jul 2022
CGPA: 9.86
